Profile

A passionate Full Stack Developer with hands-on experience in freelancing projects across multiple platforms. Skilled in frontend development using React.js and Angular, and in backend development using ASP.NET Core. Eager to engage with real-world challenges, contribute effective solutions, and grow within a professional environment

Experience

Freelance Web Developer (Full Stack)

Mars 2025 – Present

Self-employed – Remote (Mostaql Platform)

- Worked on various freelance projects involving frontend and backend web development.
- Developed and maintained responsive web applications using React.js, ASP.NET Core, and SQL Server.
- Focused on problem-solving, client satisfaction, and on-time delivery of high-quality solutions.

Information Technology Institute (ITI)

June 2025 – Present

Full Stack Development using .NET & Angular

- Completed an intensive training program specializing in .NET Full Stack Development.
- Developed web applications using ASP.NET Core Web API and Angular.
- Designed and implemented relational databases using SQL Server and Entity Framework Core.
- Applied OOP concepts, SOLID principles, and Clean Architecture in real-world projects.
- Consumed and managed RESTful APIs, ensuring data consistency and performance.
- Collaborated within Agile/Scrum teams, following version control practices using Git & GitHub.

Black Horse Academy

March 2025 – May 2025

Frontend Developer Intern

- Built responsive and dynamic web pages using HTML5, CSS3, Bootstrap, JavaScript and React.js.
- Optimized UI performance and improved cross-browser compatibility for better user experience.
- Implemented state management and handled API integration to display real-time data.
- Participated in code reviews and applied best practices for clean and maintainable front-end code.

Education

2018 - 2023

Bachelor of Communications & Electronics Engineering:

- The Higher Institute of Engineering & Technology, Luxor - Grade: Very Good.
- Graduation Project: ROV (Remotely Operated Underwater Vehicle) - Grade: Excellent

ACM - ICPC HIET Luxor Community

2021 - 2023

Head of Technical Team | September

2022 - May 2023

- Managed instructors and delivered technical lectures on algorithms and data structures.
- Organized competitive programming training sessions and competitions.

Problem Solving Team Leader | September

2020 - May 2021

- Supervised and mentored student team in algorithmic problem-solving.
- Solved 260+ problems on Codeforces demonstrating strong problem-solving skills. [Codeforces-Account](#)

Projects

Restaurant-MVC

live demo: [Dukkan Waffle](#) source code: [GitHub-Repository](#)

Developed a full-stack Restaurant Management System using ASP.NET Core MVC with Onion Architecture, featuring admin and customer dashboards, real-time order tracking, and complete menu control.

Tech stack: OOP, C#, .NET Entity Framework Core, LINQ, Onion Architecture, ASP.NET Core, ASP.NET MVC, HTML5, CSS3, Bootstrap, JavaScript.

Clinic

source code: [GitHub-Repository](#)

Architected and implemented a clinic management REST API using ASP.NET Core, and comprehensive error handling, with Swagger documentation for API testing and client integration.

Tech stack: OOP, C#, .NET Entity Framework Core, LINQ, Onion Architecture, ASP.NET API, Swagger.

Win-App-Backend-Project

source code: [GitHub-Repository](#)

The project is a simple E-Commerce Windows Form Application that simulates a basic online shopping system with products, users, and admin control.

Tech stack: OOP, C#, .NET Entity Framework Core, LINQ, Onion Architecture, Windows Forms.

My Portfolio

live demo: [Mohamed-Portfolio](#), source code: [GitHub-Repository](#)

A responsive and animated portfolio site showcasing projects, skills, and personal info.

Tech stack: HTML, CSS, Bootstrap, JavaScript, EmailJS, React.js, GSAP.

The Furniture Store

live demo: [FurniStore-Store](#), source code: [GitHub-Repository](#)

Developed a full-featured e-commerce website that allows users to register, browse products, and manage their shopping cart with add and remove functionalities. Designed for optimal performance across all devices using responsive web design principles.

Tech stack: HTML, CSS, Bootstrap, JavaScript, EmailJS, React.js.

Skills

Technical Skills

Professional in Backend: .NET 8/9, ASP.NET Core, ASP.NET MVC, Web API, Entity Framework Core.

Professional in Frontend: HTML5, CSS3, Bootstrap5, JavaScript, ECMAScript+7, TypeScript, Angular, React.js.

Professional in Database: SQL Server.

Knowledge of Developer Tools: Git, GitHub.

Knowledge of Concepts: OOP Principles, SOLID Principles, Design Patterns, Data Structures, Agile, Algorithms, Onion Architecture.

Familiar with: jQuery, GSAP, EmailJS, Postman, Swagger.

Awareness of AI Tools: Generative AI tools such as Vibe Coding and similar modern AI-assisted development platforms.

Soft Skills

Effective Communication, Team Collaboration, Problem Solving, Adaptability, Flexibility, Attention to Detail, Time Management, Fast Learner, Analytical Thinking.

Languages

- Arabic: Native
- English: Professional Working Proficiency (B2)
